

## JSM – The price-performance winner

The JSM is an affordable all-round machine for **small and medium-sized craft businesses** with high demands on surface quality. It is available in two different working widths and three equipment packages. Depending on the package, it is ideal for solid wood, veneer or lacquer sanding.

- Available with 1-3 units
- Four pre-defined configurations, from standard to advanced
- **Calibration, finish sanding and intermediate lacquer sanding**
- **Panel cleaning**
- **Panels, solid wood or veneered workpieces**

Normal production volumes

Stand-alone solution

Working width: 1,100 & 1,350 mm
